Tyler Yates

Orlando, FL | **in LinkedIn** | **GitHub** | **Portfolio** | **727-300-9214** | **yatestyler023@gmail.com**

Skills

- **Languages:** HTML, CSS, JavaScript
- **Libraries:** React, Tachyons, Bootstrap
- **Software:** Visual Studio Code, Git, Github

Projects

Drive - *HTML, CSS, JavaScript, React*

- React app that mimics the style and functionality of popular car rental app, Turo
  - Created custom components that delivered a clear, easily customizable layout
  - Incorporated CSS modules for component specific styling
  - Achieved complete responsiveness by using techniques like Flexbox, CSS grid, and media queries
  - Implemented a toggle friendly navbar for the mobile layout using the useState hook

Robofriends - *HTML, CSS, JavaScript, React, API*

- React contacts app that stores contact information into a list and makes them searchable
  - Consumed data from jsonplaceholder and Robohash APIs to display random names, contact information, and images on a reusbale, custom card component
  - Reduced time spent on styling and layout by using the tachyons library
  - Configured the contacts list to render only the matching value of the users input

Pokedex - *HTML, CSS, JavaScript, API*

- Pokedex themed web application that displays API data into a catalog to browse through
  - Planned and conceptualized the layout and functionality of app before starting development
  - Assembled dynamic interface using DOM manipulation and event handling

Work Experience

Publix Super Markets - *Cake Decorator*   **July 2021 - Present**

- Met deadlines daily for client cake orders with varying complexities
- Collaborated with teammates during conceptualization of cakes to deliver product that met client expectations
- Listened to feedback from clients and swiftly made adjustments for wedding cake orders

Zaxbys - *Crew Leader*   **June 2020 - July 2021**

- Led team through peak business hours and achieved fastest service lane time in the region
- Streamlined opening and closing specific duties by creating checklists that cleared up confusion and backtracking
- Tracked supply levels and ordered stock based off establishments needs

Education

Zero to Mastery Academy - Complete Web Developer Bootcamp   **May 2022 - Present**
